

## Post-doc position within the G8-ECS project

A one-year post-doc position is available at Inria Bordeaux Sud-Ouest in the framework of the international G8-ECS project (Enabling Climate Simulations at Extreme Scale <https://wiki.engr.illinois.edu/display/G8/G8+ESC+--+Enabling+Climate+Simulations+at+Extreme+Scale>). In that framework, the post-doc will be mainly involved in the research activity dealing with the design and analysis of parallel resilient numerical algorithms.

We are looking for candidates at post-doc level with interest, motivation and background in computational sciences and high performance computing. Applicants should provide a curriculum vitae, a list of refereed papers published and submitted, a brief statement describing his or her research interests. Applicants should also provide the names and contact information for three additional references

The position can be starting anytime from now. To ensure a full consideration, applications must be submitted by October 15, 2012. Applications will be accepted thereafter until the position is filled.

Please send your application by email to [luc.giraud@inria.fr](mailto:luc.giraud@inria.fr) (<http://hiepac.bordeaux.inria.fr/>).
