Creation Process: Where are we ?

- 2014-2015: numerous informal discussions
- 2015: New team definition & writing of a 5 page team proposal
 - Presentations at LIG + INRIA
 - Evaluation by COS, CP, LIG
 - Approbation by INRIA direction (François Sillion, Antoine Petit)
- 1/1/2016 official creation of Polaris and DataMove as “Equipe Centre”
- 2016:
 - Preparation of a 30 page team proposal
 - Based on these documents we will be evaluated :
 - locally (COS, CP)
 - nationally by CE
 - International by known experts of the field
 - If all evaluations are positives the teams should be created as “Equipe Projet Commune” by the end of 2016.
- Mescal and Moais will be evaluated in October 2016, with a presentation of Polaris and Datamove

Publish on HAL

– <https://hal.inria.fr>

– Why:

- Leave a copy (preprint) of your work on a free access institutional public server (rather than only on the private digital library of IEEE/ACM/Elsevier)
- Publication lists for **annual activity report** or web sites (team, personal) are extracted from HAL
